

納米石®環保塑膠袋

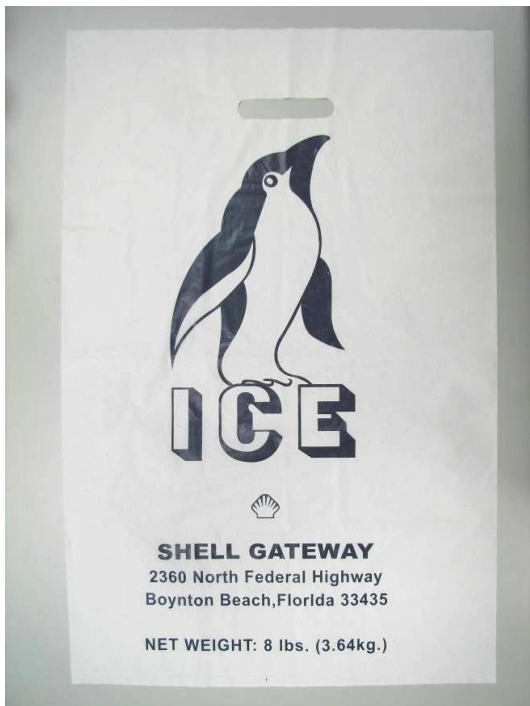

ZEO® Plastic Bags

- 方案一：節能減碳環保塑膠袋 Solution 1: Plastics reduced bags

- 可減少 10~60%的塑膠用量。Plastics reduced 10 to 60% due to replacement with ZEOs.
- 燃燒所產生的二氧化碳可減少約 7.2~43.2%。Less CO₂ emitted when disposal in fire from plastics.

- 方案二：可分解環保塑膠袋 Solution 2: Bio-degradable Bags

- 澱粉提煉之環保塑膠袋。Plastics based on renewable resources – like corn, cellulose, etc. that conforms to both bio-based and bio-degradable plastics definition.
- 經過堆肥掩埋後，其可達到完全分解，不會對環境造成負擔。Bio-degradable and compostable plastics capable to be used in compost collection program without separation.
